# ACADEMY OF MUSIC AND PERFORMING ARTS

The Academy of Music and Performing Arts (AMPA) is an ambitious, innovative conservatory program. AMPA brings students to a high level of excellence, while connecting music with other art forms such as dance, theater and fine arts. Our core program components are artistic excellence, an international environment, entrepreneurial skills, intensive work with ensembles in residence, and interdisciplinary opportunities. We educate students to become leaders in their field and play important roles in the development of new visions on the music profession.

## EUPHONIUM

### ABOUT THE COURSE

Are you interested in studying Euphonium? AMPA offers a specific course for this beautiful instrument! Are you dreaming of a career as an ensemble specialist? An orchestral musician? A soloist? A Teacher? Anything is possible!

- You will be trained to become a professional on your instrument with the highest possible musical and technical capabilities.
- Playing together with other musicians is an integral part of your studies. You will be part of the brass department, but we would also challenge you to make surprising combinations with other instrumentalists and art forms.
- In the Bachelor Course you will have weekly lessons with your euphonium teacher (Robbert Vos), a weekly ensemble coaching lesson, and a rehearsal with a pianist to work on repertoire. Of course, this is combined with interesting courses on music theory, cultural history, entrepreneurship and much more.
- In the Master's Course, AMPA gives you the opportunity to shape your own educational plan. Do you want to focus on any specific subjects? Or would you like to specialise in teaching, solo playing or ensemble performance? It's up to you!
